Small Business Resource Center - "Limu Hale"

Ewa Beach was formerly known as "House of Limu" because of the abundance of limu. Limu nourishes its environment and adds strength to the reef structure.

Likewise, the co-working shared space will be a place that the Ewa Beach CBDO would provide the foundation and networking support to small businesses "extending its branches and encouraging more to grow," thus enabling the communities local small businesses to thrive.

We provide a co-working shared space for any small businesses looking for a hub that serves as a place to work, network, train, and much more. Annual members also benefit from a continuum of services from the organization's training and development center.
